

Screwdrivers & Bits

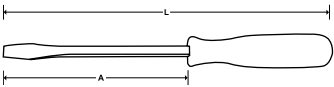

Blue-Point's screwdrivers offer you better grip and turning force with tool tip durability to match. Handles are made with dual materials and ergonomically shaped to fit your palm for a better grip. The high strength Molybdenum-Vanadium steel shanks are nickel and chrome plated for toughness and corrosion resistance. Vapor-blasted tips, while maintaining a rust-proof finish, offer greater biting strength and preventing the rounding of screws and screwdrivers alike. Details like laser-etching of the size and part number on the blade to ensure permanence over continual usage and passing of time are not missed out. We even offer 3 colours for the same range of screwdrivers to facilitate tool identification and differentiation for different work-teams.

- 2-Component handle gives to the screwdriver an ideal ergonomic shape
- Perfectly adapted to the forces exerted by the hand and permits work efficiently
- The chrome molybdenum vanadium blade is hardened to HRC 59±1
- Nickel and chrome plated blade and the tip is especially vapor-blasted for greater screw-tip adherence and a full anti-rust guarantee
- With hanging hole moulded to the blade
- The size and part number are laser-etched on the blade to ensure their permanence

1/4" Ratchet Nut Driver, Pistol Handle

BSGDMR6

- 5" magnetic bit holder blade for 1/4" hex bits
- 45 tooth ratcheting mechanism ensures precise positioning and movement
- Bits are stored in a bit magazine inside the handle
- Includes six 1/4" hex bits: Flat Tip (4.5 and 5.5), Phillips® (#1 and #2) plus Torx® (T15 and T20)
- Ergonomically designed two component handle is textured for excellent grip and user comfort
- Provides three functional options, left and right turning and locked position
- Blade features a knurled-grip for fast spinning of the fastene
- Screwdriver carries a lifetime warranty. (Bits are consumable and carry no warranty.)
