## PRYBAR AND COMFORT GRIP PUNCH & CHISEL HOLDER

- Adjustable screw allows holder to be used with most punches and chisels.
- Holder keeps operator's hand safely away from swinging motion of the striking tool.
- Handles are resistant to solvents, gasoline and oil.
- Lightweight, plastic handle with thumb stop provides both comfort and control during use.
- Prybars designed for powerful leverage and available in 8", 12", 18" and 24" length.

## DEADBLOW HAMMERS

- Deadblow feature minimizes hammer bounce back, reducing fatigue and improving productivity.
- Hard urethane construction resists cut damage to the hammer head and will not absorb liquids.
- Urethane material provides a non-marring contact surface that will not damage equipment and is non-sparking — no metal-to-metal contact.
- HI-VIS yellow color allows for easier and quicker location of hammer at the job site.
- Handles are designed for user comfort and maximum performance.
